Story

- There are two people (or creatures) facing front and 6 units apart. They turn and face each other and then try to impress each other. One jumps up and does a split. Then the other jumps up and does a flip. Then they both turn forward and bow.
- Write a storyboard and include in at least three different camera views (where one is the original view from the front).
- Then implement your story in an Alice world

Get Checked off!

- You will need to show us your storyboard and your Alice world to get checked off.
