Ready for Lab

• Based on your reading and work so far, answer the following questions for your individual readiness assessment:

http://bit.ly/FoDS-f18-lab03-iRA

• Now talk to your teammates and come to a consensus.
  • Submit only one per team

Defining Functions

User-defined functions give names to blocks of code

```python
def spread(values):
    return max(values) - min(values)
```
What’s next?

• Read Chapter 8-9 of *Computational and Inferential Thinking*

• Finish working on Homework 2 (out tonight)
