Arrays

- What is an array?

- Why create an array?

- Can an object be in more than one array?

How and Where does one create an array?

What is the order the birds do something here?
What does this code do?

- The birds turn red one at a time. Then at the same time they all turn blue.

What does this code do?

- Phoenix says greetings one at a time
- Then Penguin says the greetings all at once

What does this code do?

- Each bird in the array lotsOfBirds, one at a time, says the phrases in the array greetings, one at a time.

What does this error mean?

- "someBird" is not available.
BE CAREFUL!

• When naming loop variable

• Don’t CUT and PASTE ARRAY LOOP code
