CompSci 94
Write your own Procedures,
object movement
September 12, 2019

Prof. Susan Rodger
Write your own procedure

• Why would you want to write your own procedure?

• What is another name for procedure?
How do you create a procedure?

• Click on octagon at top
  – Select character whose procedure it is for
  • Bunny hop
• Select “Add bunny procedure”
Creating and Using procedures

• Where do you put the code for a procedure?

• How do you use new procedure? Where is it?
Suppose you want to edit a procedure

- If the tab is not there, how do you get it back up so you can edit it?
Object Movements

• Objects turn, roll and move different directions
• Parts can also turn and roll
• Parts not intended to be moved
• Helps if you understand the orientation of objects
Object Directions

• What direction are the arrows?
  – White
  – Blue
  – Red
  – Green
What about parts?
